Abstract

The QUEX Quantum Technologies and Therapies supported physics, Biofeedback and Bio-resonance are designed to detect and reduce STRESS (physical, mental, emotional, social, environmental), the most explanation for disease within the world today.

The QUEX Bio-resonance and Biofeedback device makes it possible to question the body for its most acute and chronic imbalances and to correct these stressors with focused energetic therapies. The main premises of Bio-resonance and Biofeedback therapies are:

The energetic body is that the matrix of the human body. Heal energetic blockages and therefore the biochemistry of the body will change.

The body is electrical in nature, therefore reactivity to stressors within the body are often measured electrically. Healths are often measured!

The body is innately intelligent and it's the power to heal itself if the proper conditions or stimuli (frequencies) are provided.

Electromagnetic frequencies (micro-currents) are often wont to re-establish the electrical and biochemical functions of the body to revive the integrity of the tissue and promote healing.

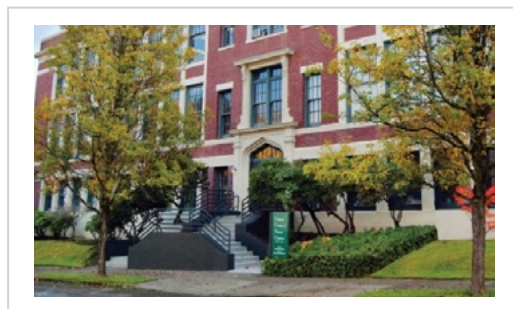

Frequency therapies as utilized in QUEX Technologies are holistic, personalized, efficient, safe, painless, drug-free, without side-effects, consonant with the environment and scientifically based. They are, unquestionably, an alternate to the over-medicalization which prevails today in our health systems everywhere the planet.

Offering over 500 assisted-by-computer Biofeedback therapies, it's the most important Healthcare software package within the world, combining both Eastern and Western philosophies and techniques.

Join us for this presentation where we'll demonstrate a number of the foremost powerful functionalities of this QUEX device including our technique of Digital Acupuncture!
